

Zoo U. Tables Party for the Planet 2011

Table Location	Title	General Info
Komodo Dragon Exhibit	Endangered Reptiles	Even though it may be too cold in April to see them outside, there are many fascinating species of endangered reptiles to discover at this table, including the Komodo Dragon.
Tropical Forest Complex	Rainforest Conservation	Learn about rainforest species and threats to this complex and important ecosystem
	Palm Oil Crisis	The farming of palm oil is a major threat to rainforests and species, such as the Orangutan. Learn which foods are made with sustainably produced Palm Oil.
African Painted Dogs	Social Structure	One of the most fascinating aspects of painted dogs is the way they interact with each other and the way they function as a family unit. At this table, you will learn about these amazing, caring social animals.
	African Conservation	Africa is home to many endangered or threatened animal species. There is so much to learn about the animals that call Africa home and the ways you can make a positive step toward conservation.
PPG Aquarium	Sea Turtle Conservation (2 tables)	Learn about the PPG Aquarium's Sea Turtle Second Chance program and what you can do to protect sea turtles when you visit the beach this summer.
	Ocean Conservation	Conservation can be easy. Discover what you can do to protect ocean ecosystems.
	Effect of an Oil Spill	Last year's biggest environmental story was the gulf oil spill. Learn about the effect it had on wildlife and how people are working to clean it up.
PNC Pavilion (if available or at entrance of Kids Kingdom)	Pennsylvania Ecosystems	Discover the species that live in your own backyard and what you can do to protect them.
